

# ROAD WARRIOR

# Paint Protection Plus™

## Easy To Use, Easy To Remove!

RWP is water based, rolls on white, dries clear, forming a tough, flexible vinyl film.

Can be left on or used temporarily until you reach your destination.

<u>Size</u>	<u>Price</u>
Pint	\$34.99
Quart	\$45.99
One Gallon	\$139.99
Application Kit (includes Brush & Tray)	\$ 4.99

Road Warrior Plus is a water based copolymer emulsion containing zero VOC's. RWP can be applied using standard HVLP spray gun, or standard paint and roller brushes. Because of its unique ability to breath, RWP can be applied to freshly painted surfaces that are cured to the touch. Remove by peeling or water pressure. Apply car wax to oxidized surfaces prior to applying RWP. Do not allow RWP to freeze when stored, and apply at temperatures above 68 degrees. Simply clean Brush and Tray with water and reuse. For best results, apply RWP in the sun. If the temperature is below 68 degrees, use a blow dryer or heat gun to warm surface and to achieve proper adhesion to paint surface.

Dealer

## Protect Your Car, Motorcycle, Boat Trailer, Motorhome

Protection against environmental hazards, rock chips, bugs, and tar. RWP has no limitation when it comes to corners or contours, making it the most versatile paint protection on the market.

## Recently Endorsed By Orange County Choppers!

Tom Joyce, OCC Service Manager says " every bike created by OCC, will be protected with Road Warrior Plus paint protection during assembly, all the way to the dealer".
